CONTENTS Volume 75 2003

Volume 75 No. 1 October 2003

Reviews of Plant Biotechnology and Applied Genetics

Optimisation of transformation conditions and production of transgenic sorghum (*Sorghum bicolor*) via microparticle bombardment
Y. Tadesse, L. Sági, R. Swennen, M. Jacobs **1–18**

Regular articles

A rapid and efficient method for regeneration of plantlets from embryo explants of cumin (*Cuminum cyminum*)
E. Ebrahimie, A.A. Habashi, B. Ghareyazie, M. Ghannadha, M. Mohammadie **19–25**

Embryogenesis and genetic stability in long term megagametophyte-derived cultures of larch
P. von Aderkas, R. Pattanavibool, K. Hristoforoglu, Y. Ma **27–34**

The effect of osmotic potential on anther culture in spring wheat (*Triticum aestivum*)
T.-J. Kang, M.-S. Yang, E.L. Deckard **35–40**

Plant regeneration from embryo-derived callus of oil palm – the effect of exogenous polyamines
M.K. Rajesh, E. Radha, A. Karun, V.A. Parthasarathy **41–47**

Superoxide dismutase activity in callus from the C_3-CAM intermediate plant *Mesembryanthemum crystallinum*
I. Ślesak, M. Libik, Z. Miszalski **49–55**

***In vitro* and *ex vitro* growth of grapevine rootstock '5BB' as influenced by number of air exchanges and the presence or absence of sucrose in culture media**
S.-W. Shim, E.-J. Hahn, K.-Y. Paek **57–62**

***Agrobacterium*-mediated genetic transformation of a *Dendrobium* orchid**
S. Men, X. Ming, R. Liu, C. Wei, Y. Li **63–71**

Volatiles emitted from *in vitro* grown tomato shoots during abiotic and biotic stress
K. Maes, P.C. Debergh **73–78**

A study on the effect of genotypes, plant growth regulators and sugars in promoting plant regeneration via organogenesis from soybean cotyledonary nodal callus
R.V. Sairam, G. Franklin, R. Hassel, B. Smith, K. Meeker, N. Kashikar, M. Parani, D.Al. Abed, S. Ismail, K. Berry, S.L. Goldman **79–85**

Menthol tolerant clones of *Mentha arvensis*: approach for *in vitro* selection of menthol rich genotypes
S. Dhawan, A.K. Shasany, A.A. Naqvi, S. Kumar, S.P.S. Khanuja **87–94**

Research note

Plant regeneration through shoot formation from callus of *Areca catechu*
H.-C. Wang, J.-T. Chen, S.-P. Wu, M.-C. Lin, W.-C. Chang **95–98**

Volume 75 No. 2 November 2003

Review of Plant Biotechnology and Applied Genetics

Natural hybridisation in birch: triploid hybrids between *Betula nana* and *B. pubescens*
K. Anamthawat-Jónsson, A.T. Thórsson **99–107**

Regular articles

The reticuloplasmin calreticulun is released into the medium by carrot cell cultures
M. Libik, Z. Miszalski, L. Przywara, L. Navazio, M.C. Nardi, P. Dainese, B. Baldan, P. Mariani **109–116**

Morphology and ultrastructure of *Mammillaria gracillis* (Cactaceae) in *in vitro* culture
D. Poljuha, B. Balen, A. Bauer, N. Ljubešić, M. Krsnik-Rasol **117–123**

Rapid mass propagation of *Tylophora indica* Merrill via leaf callus culture
M. Faisal, M. Anis **125–129**

The influence of medium aeration on *in vitro* rooting of Australian plant microcuttings
C. Newell, D. Growns, J. McComb **131–142**

Elevated carbon supply altered hypericin and hyperforin contents of St. John's wort (*Hypericum perforatum*) grown in bioreactors
S.M.A. Zobayed, S.J. Murch, H.P.V. Rupasinghe, P.K. Saxena **143–149**

Transformation of *Atriplex gmelini* plants from callus lines using *Agrobacterium tumefaciens*
A. Uchida, K. Nagamiya, T. Takabe **151–157**

Direct organogenesis from hypocotyl-derived explants of annatto (*Bixa orellana*)
V. Borges de Paiva Neto, T. Ribeiro da Mota, W. Campos Otoni **159–167**

Research notes

***In vitro* multiplication of *Calophyllum apetalum* (Clusiaceae), an endemic medicinal tree of the Western Ghats**
L.G. Nair, S. Seeni **169–174**

Direct regeneration of *Drosera* from leaf explants and shoot tips
A. Kawiak, A. Królicka, E. Lojkowska **175–178**

***In vitro* micropropagation of a *Cucurbita* interspecific hybrid cultivar – a root stock plant**
S. Sarowar, H.Y. Oh, N.I. Hyung, B.W. Min, C.H. Harn, S.K. Yang, S.H. Ok, J.S. Shin **179–182**

Tomato spotted wilt virus (TSWV) infection of *Physcomitrella patens* gametophores
S. Hühns, C. Bauer, S. Buhlmann, C. Heinze, S. von Bargen, M. Paape, J.-W. Kellmann **183–187**

Volume 75 No. 3 December 2003

Review of Plant Biotechnology and Applied Genetics

Plant improvement for tolerance to aluminum in acid soils – a review
D.A. Samac, M. Tesfaye **189–207**

Regular articles

Plant regeneration from embryogenic suspension cultures of *Musa acuminata* cv. Mas (AA)
M. Jalil, N. Khalid, R.Y. Othman **209–214**

Enhanced somatic embryogenesis and plant regeneration in leaf explant cultures of *Ostericum koreanum* on medium of varying pH
D.-Y. Cho, E.-K. Lee, S. Lee, W.-I. Chung, W.-Y. Soh **215–222**

High frequency shoot regeneration and *Agrobacterium*-mediated DNA transfer in Canola (*Brassica napus*)
M.R. Khan, H. Rashid, M. Ansar, Z. Chaudry **223–231**

***In vitro* field collection techniques for *Eucalyptus* micropropagation**
M.P. Watt, P. Berjak, A. Makhathini, F. Blakeway **233–240**

***In vitro* induction of tetraploid in pomegranate (*Punica granatum*)**
J. Shao, C. Chen, X. Deng **241–246**

Somatic embryogenesis and plant regeneration in wild cotton (*Gossypium klotzschianum*)
Y. Sun, X. Zhang, S. Jin, S. Liang, Y. Nie **247–253**

Sucrose level influences micropropagation and gene delivery into leaves from *in vitro* propagated highbush blueberry shoots
X. Cao, I. Fordham, L. Douglass, F. Hammerschlag **255–259**

AC electrokinetic characterisation and separation of cells with high and low embryogenic potential in suspension cultures of carrot (*Daucus carota*)
C.D. Falokun, F. Mavituna, G.H. Markx **261–272**

Research notes

Adventitious organogenic regeneration from soybean genotypes representing nine maturity groups
N.A. Reichert, M.M. Young, A.L. Woods **273–277**

Field performance of artificial seed-derived sugarcane plants
N. Nieves, Y. Zambrano, R. Tapia, M. Cid, D. Pina, R. Castillo **279–282**

***In vitro* growth and shoot multiplication of *Wrightia tomentosa* Roem et Schult in a controlled carbon dioxide environment**
S. Vyas, S.D. Purohit **283–286**

Regeneration and large-scale propagation of *Phragmites communis* through somatic embryogenesis
Y.-G. Yang, Y.-M. Guo, Y. Guo, Z.-C. Guo, J.-X. Lin **287–290**

Instructions for authors **291–293**

Author index Volume 74 **295**
